## CENSORSHIP INDICATES GREAT BATTLE IS ON.

### WILSON PREPARED FOR ATTACK BY LAND.

Mass of Troops Assembled in Readiness for Kaiser's Forces.

German Waters Are Now Calm and Export of Food from Denmark to England Is Resumed—Passenger Ship Lusitania Under Long Strain During Voyage from New York to the Mersey.

BY EDWARD P. REEL.

ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.]  
Aug. 13.—That Germany has been informed by the British government that it is prepared to resume the export of food from Denmark to England is indicated by the fact that the British government has issued a statement to that effect. The statement was issued by the British government in London today, and it was the first time that the British government has issued such a statement since the outbreak of the war. The statement was issued by the British government in London today, and it was the first time that the British government has issued such a statement since the outbreak of the war. The statement was issued by the British government in London today, and it was the first time that the British government has issued such a statement since the outbreak of the war.

### ITALIANS CO-OPERATE FOR MEDIATION.

[BY ATLANTIC CABLE AND A. P.]

ROME, Aug. 13 (via London, 5:10 p.m.)—The Messenger today says it understands that the Italian Ambassador to the United States, the Marquis Cusani Confalonieri, who is returning to Washington immediately, has instructions to co-operate with President Wilson in regard to the latter's offer of mediation in the European war.

The Foreign Office summoned here today the Italian Ambassador in Paris, St. Petersburg, London and Berlin, as the government desires to consult with them concerning the war situation.

Confident.

### KAISER WILL TAKE PARIS, AMERICAN ARRIVAL SAYS.

[BY ATLANTIC CABLE AND DIRECT WIRE—EXCLUSIVE DISPATCH.]

LONDON, Aug. 13.—Dr. Francis D. Donohue of Boston arrived in London tonight from Germany with four other Americans, the first to come out in more than a week. They emphatically declare that all Americans are being treated with the greatest consideration.

German officials are advising Americans to remain in the big cities, where money orders and letters of credit are being honored. But in small towns many Americans are suffering hardships.

Dr. Donohue told of the trip from Aix-la-Chapelle by team to the frontier, accomplished through the assistance of Robert J. Thompson, the United States Consul there. For seven days in Aix-la-Chapelle, Dr. Donohue said, he saw troops passing. He declared that the German army was in a state of confusion, and that the German people were suffering from the war.

RESULTS IN BELGIUM.  
Speaking of the trip through Belgium on the way to France, Dr. Donohue said: "It is all a confusion. The German army is in a state of confusion, and the German people are suffering from the war. The German army is in a state of confusion, and the German people are suffering from the war. The German army is in a state of confusion, and the German people are suffering from the war."

Germany without news.  
Donohue said that he had no news from Germany, but that he had heard that the German army was in a state of confusion, and that the German people were suffering from the war. The German army is in a state of confusion, and the German people are suffering from the war. The German army is in a state of confusion, and the German people are suffering from the war.

Germany without news.

### FRENCH LINES HOLDING FIRM ACCORDING TO LONDON REPORT.

Surge.

Vienna Dispatch Declares an Austrian Army Is Advancing Into Russian Poland.

Sixty Thousand Dutch Troops Massed on the Frontier of Holland—German Right Wing Is in Retreat, According to Meager Advice Out of Brussels—Alsace Still the Scene of Engagements—Wounded Troops Reach Southampton.

[BY ATLANTIC CABLE AND A. P.]

LONDON, Aug. 14, 1:50 a.m.—The French embassy has received the following official communication from the Ministry of Foreign Affairs at Paris:

"At no point, notwithstanding repeated efforts, have the Germans been able to break the French line of defense. In outpost fighting the superiority of the French artillery continues to assert itself."

LONDON, Aug. 13, 12:10 p.m.—A Vienna dispatch to the Reuter Telegram Company received by way of Amsterdam says the Austrian troops have advanced into Russian Poland.

LONDON, Aug. 14.—The captain of the Danish steamer Haildamaish declares he saw seven sunken German steamers fifteen miles off Spurnhead at the northeast entrance of the Humber. Only their masts were visible above the water.

SHANGHAI, Aug. 14.—Two warships, each having four funnels, badly damaged and carrying many wounded, entered the harbor at Hongkong yesterday. Their identity has not been learned here, but the vessels are believed to be either the British armored cruisers Minotaur and Hampshire or the French armored cruisers Duplex and Montcalm. They are reported to have had an engagement with the German cruisers of the same type, Scharnhorst and Gneisenau.

LONDON, Aug. 13.—(11:45 p.m.)—The hour of the great battle which will have much to do with setting the future of Europe, is apparently nearer.

Reports of engagements which, when the main armies meet, will be considered insignificant, have been coming in all day, showing that the cavalry screens, sometimes accompanied by infantry, whose duty it is to find out what is going on behind, have been active in the North Sea, near Heligoland, and on the French frontier near Othain.

The meeting of these reconnoitering parties in force has resulted in some pretty severe fighting, in which, according to the French and Belgian official accounts, the allies scored further successes.

The other side of the story is still to be told, for the German official account has been very meagre. It has little to say since it reported the capture of Liege. The position (Continued on Fourth Page.)

## WILSON OPPOSES FRENCH LOAN AS VIOLATION OF NEUTRALITY.

[BY A. P. NIGHT WIRE]

WASHINGTON, Aug. 13.—President Wilson was confronted today with the problem of whether or not to permit the floating of a loan in the United States for any of the countries engaged in the European war.

Though the President has not reached a final decision, he is strongly opposed to the idea. The question arose through the desire of J. P. Morgan & Co. to float a loan of several hundred million dollars for the French government. Inquiry was made of the State Department by the Morgan firm as to whether the floating of such a loan would be regarded as a violation of neutrality.

Secretary Bryan discussed the subject with the President, who is studying it carefully before returning a final answer. Besides J. P. Morgan & Co., it is understood that another New York banking house of prominence is desirous of floating a loan for Austria, but the State Department has not yet been approached, so far as could be learned tonight, with any formal inquiry as to questions of neutrality involved.

MISUNDERSTANDING FEARED.  
While there is no provision in the American neutrality statutes against the lending of money to foreign nations and no international agreement exists forbidding it as a violation of neutrality, the President's judgment is that if it were permitted, serious misunderstanding might ensue in Europe as to the real attitude of the American government and people toward the different nations in the present struggle.

A loan was floated for Japan during the Russo-Japanese War, but notwithstanding the precedent, it is President Wilson's belief that the influence of the American government ought to be exerted so far as possible toward reducing the length of the strife rather than adding elements for its prolongation. He is likewise opposed to the sending of large quantities of gold from the United States at a time when domestic financial needs are paramount.

FOR STRICT NEUTRALITY.  
The possibility of stirring up ill feeling among the numerous bodies of citizens in the United States of particular sympathies in the European war, is also regarded by the President as a potent reason for discouraging the floating of loans. By preserving strict neutrality to the letter he believes the position of the United States will be most secure in the future.

(Continued on Second Page.)

## CENSORSHIP ON CABLE OFFICES MAY BE IMPOSED BY WILSON.

[BY A. P. NIGHT WIRE]

WASHINGTON, Aug. 13.—President Wilson and Secretary Bryan discussed today at length a plan to apply to all cable offices in the United States the same censorship which recently had been placed on wireless stations to prevent neutral territory from being used as a base for the transmission of military or naval information to the belligerent countries of Europe.

At the conclusion of the conference it became known that the President and Mr. Bryan were virtually agreed that an impartial enforcement of neutrality would require censoring of cables as well as wireless. A new phase was called to their attention, however, which has delayed final decision until tomorrow's Cabinet meeting. This is the comparative ease with which Great Britain could evade the censorship at cable offices in the United States by having all her messages sent by telephone, telegraph, mail or messenger over the Canadian border for transmission through the Canadian cables at Halifax, N. E. Although the German government has protested against the unrestricted use of the cable by England from the United States, the German-owned wireless companies and other stations are unable to send code mes-

sages, the elimination of all forms of censorship in the United States on either cable or wireless is said to be the wish of the German government as well as commercial companies concerned.

TO ADVISE GERMANY.  
The German Charge d'Affaires is expected here tomorrow and after the Cabinet meeting, it is believed, will be formally advised of the decision of the Washington administration.

The question of the authority of the United States government over the cable companies and its right to prescribe the conditions under which they shall operate, has received very careful study at the State Department in connection with the subject of neutralizing the radio systems. Though the question is a new one and of very great importance, the officials have satisfied themselves that the government is entirely within its right in exercising any measure of control over both cables and wireless systems that it may deem necessary to preserve the attitude of strict impartiality, which it is determined to observe during the present war.

Strong representations have been made to the State Department not only by belligerent powers, but also by the great commercial interests, against any attempt to control either the wireless systems or cables. The German government made such representations in behalf of the German station at Bayville, L. I., and Tucker-

## TINY BRITISH WARSHIP FIGHTS GERMAN CRUISER.

[BY ATLANTIC CABLE AND A. P.]

HALIFAX (N. S.) Aug. 13.—For half an hour Thursday night 11 M. B. Bristol, the smallest British warship in the North Atlantic, fought a long-range duel with the Karlsruhe, the largest and fastest of the German cruisers which have been trying to intercept British shipping on the North Atlantic.

Fleeing from the British cruiser Suffolk, which interrupted the Karlsruhe's coaling at sea from the North German Lloyd steamer Kronprinz Wilhelm, the German cruiser was intercepted by the Bristol southwest of Bermuda, and for half an hour a long-range running fight took place in the darkness of semi-tropical night.

Racing through the heavy swell, the ships exchanged broadsides without inflicting much damage, conditions being very unfavorable for accurate gunnery. Although the Bristol's guns were at least a hundred miles astern, the German would not stand and fight, according to the British participants. Altering her course she gradually drew away from the Bristol, owing to superior speed, and after half an hour was out of range of the British six-inch bow chaser.

The chase was continued, but somewhere in the darkness the German doubled, and made off south to San Juan.

Unknown.

## LARGE WARSHIP SIGHTED OFF SANTA CRUZ BEACH.

[BY A. P. NIGHT WIRE]

SANTA CRUZ, Aug. 13.—A large warship with three funnels was sighted by the crowds on the beach here at 3 o'clock this afternoon when the fog bank at sea lifted. The vessel was about six miles off and was headed toward San Francisco at high speed, dense smoke pouring from all her funnels.

As soon as the fog lifted the war-

PEACE TREATIES ARE RATIFIED

SENATE AGREES TO EIGHTEEN ADMINISTRATION MEASURES.

(BY A. P. NIGHT WIRE.) WASHINGTON, Aug. 13.—Eighteen of the twenty peace treaties with foreign nations providing for commissions of inquiry before resort to arms in international disputes which ordinary resources of diplomacy fail to settle, were ratified by the Senate today.

Mediators Pacts With the Dominican Republic and Panama Are Held Up Because of Present Delicate Relations Between These Countries and the United States.

(BY A. P. NIGHT WIRE.) WASHINGTON, Aug. 13.—Eighteen of the twenty peace treaties with foreign nations providing for commissions of inquiry before resort to arms in international disputes which ordinary resources of diplomacy fail to settle, were ratified by the Senate today.

CO-OPERATIVE AID BY BUSINESS MEN

(BY A. P. NIGHT WIRE.) NEW YORK, Aug. 13.—The Executive Committee of the Chamber of Commerce of the United States, representing 600 business organizations, with a membership of 400,000 men in all parts of the country, left late today for Washington to take up with the Treasury Department the problem of promoting co-operation by the government with the membership of the chamber in meeting the Treasury's foreign trade responsibilities which the war in Europe has placed upon the business community.

AMORY'S CLERK SUSPECTED

Allen Thomson Held in Connection With Murder of Western Railroad Association's Secretary in Chicago.

(BY A. P. NIGHT WIRE.) CHICAGO, Aug. 13.—Allen Thomson, a clerk in the office of the Western Railroad Association, was held today by direction of the Coroner, in connection with the death of Edward P. Amory, secretary of the association, whose body was found in his office yesterday.

NEBRASKA GIRL'S MURDER

Coroner's Jury Recommends Holding of the Alleged Abductor—Mob Violence Is Feared.

(BY A. P. NIGHT WIRE.) SCHUYLER (Neb.), Aug. 13.—A Coroner's jury here returned late today a verdict that Louise Mick, 18 years old, daughter of a wealthy Schuyler family, was abducted Monday evening last and killed by Frank Heidt, and recommended that Heidt be held for murder.

FIRE AT DETROIT

FARGO (N. D.), Aug. 13.—Fire which started in a livery barn today practically destroyed two entire business blocks of Detroit, Minnesota, before it was gotten under control.

SHIPPING BILL HAS OPPOSITION

Perkins and Mann to Lead Fight Against Adoption.

Object to Foreign Bottoms in Coastwise Trade.

Business Men Eager to Aid McDoo Solve Problems.

(BY A. P. NIGHT WIRE.) WASHINGTON, Aug. 13.—Champions of American coastwise shipping in the House and Senate let it be known today that they would oppose bitterly the adoption of the conference report on the emergency shipping bill, which would admit foreign built ships to the coastwise trade if they take American registry within the next two years.

PROVISIONS OF BILL

The bill as now agreed on in conference would admit to American registry all foreign-built ships owned by American citizens or corporations regardless of the age of the ships.

GOVERNMENT LINERS

Construction by the government of twelve passenger and freight liners of 10,000 tons each, to be manned by officers and crews from the navy, was proposed in a bill introduced today by Representative Humphrey of Washington.

Obergren, in a telegram Agua Prieta tonight, was sending Eric-Gen. Hill to suppress Col. P. as military commander. Whether the change will encourage or demoralize the Maytorena and na, or whether Col. Calles to some other part of not known.

gram received from Col. Cananea, the present er said he had no desire would remain in Cananea to depart. He said he ght Gov. Maytorena un-

**LIFE THREATENED.**

**Shortage of Potassium made in Germany, Plants to Suspend.**

A. P. DAY WIRE.]

(Tex.) Aug. 13.—Further the mining industry in Mexico is threatened by European war. The cop-is said virtually to have by the suspension of de-mands in metal in Europe. Gold mining industry is this is due, mining men today, to the shortage of nitrate, which is a nec-essary in the extraction of gold. The entire supply of this es from Germany.

**NEAR CAPITAL.**

**Reactionist Leader Joins His Western Zone Chiefs; Plans in the North.**

A. P. DAY WIRE.]

(Tex.) Aug. 13.—Gen. Huerta today at Tula, Huasteca fifty miles north of Mexico City according to an official statement today by Constitutionals. He was reported to have been joined there by several chiefs preparatory to attacking the northern com-mand while in visiting several zones which his troops did not arrive today at Matamoros. Huerta's forces, a town near Parral, are expected officially that Villa north and soon would attempt statement in con-trast with Carranza.

**U. S. ARMY DISMISSED.**

**MEXICAN MANIFESTO SHOWS STILL FEEL INFLUENCE OF REVOLUTION.**

**ADDISON HUGHES.**

—ADDISON'S DISPATCH.]

MEXICO CITY (Mex.) Aug. 13.—The Mexican Manifesto dis-simulating intervention in Mexico is convinced the subsequent death of General Velasco to dis-credit the army. Velasco's manifesto this by the fact it is dangerous to the integrity and would lead to the American advance on the capital continued. The dis-army army and the gen-eral left Velasco, as Carranza refused to recog-nize him as neutral com-mander of the capital with any semblance of authority.

"Any humanitarian consideration may have been lost in view of the fact the Federal force has withdrawn leaving down their rifles and equipment and ille-gally retaining their government property and themselves liable to prosecution."

The attitude expressed in this ultimatum referred to is considered the possibility of implementing a new revolution with the Federal revolutionary movement.

It is made no impression, however, but dissolution of the city with ex-cessiveness and the great excitement residents of Vera Cruz loaded with arms and children who are nationalistic in spirit either in a military effort to seize the Con-stitution, are leaving the city.

The dissolution decree and ultimatum, the greater Federal force has suc-ceeded from the capital withdrawing artillery and ammunition re-form from the Ciudadela.

An emphatic declaration of fighting would prevent them. He un-doubtedly to answer why armed troops to evacu-ate them they must even-tually be a menace to the country.

Col. Carlos Domínguez of Villa's staff, invited of Carbanza.

**GERMAN INVOLVED.**

**Germany Has No Influence in Geneva and London in Present War, CABLE AND A. P.]**

(Paris) Aug. 13.—Today the influence of Germany in the international powers is neutralized by the Belgian Foreign Ministry through their diplo-mats in the Belgians' efforts to alleged reports of German troops in Belgium and The Netherlands.

The Belgian Foreign Minister up a long list of evidence to be fully attested, that the wounded, the killing of prisoners, the seizure of private property.

## THE CITY AND ENVIRONS.

### EVENTS BRIEFLY TOLD.

#### Women's Advertising Club Meeting.

The Women's Advertising Club will meet a week from today at the Hotel Clark at noon. Important business in regard to the more complete organization of the club will come before the members at this meeting, and a full attendance is desired.

#### Tailor Glad to Be Home.

W. Krystal of the firm of Krystal & Co., who arrived at home yesterday expresses his pleasure at getting out of Europe a week ahead of the war. He says he mingled freely with the people of several countries and there was no talk of war. He also shipped his goods before the outbreak.

#### Open to Pedestrians.

The Hill-street tunnel, closed to vehicle traffic, on account of the dangerous condition of the roof, is open to pedestrians. This is a source of great satisfaction to merchants and apartment-house owners beyond the door. Their business has suffered greatly because of the closing of the tunnel.

#### Service for Workers.

A special divine service was conducted yesterday noon for the 300 workmen who are putting the finishing touches on the magnificent new house of worship for Trinity M. E. Church, South. Rev. C. C. Seelman, pastor of the church, presided, and practically every one of the builders was present.

#### Long Beach Joins in.

The Long Beach Chamber of Commerce has joined the long list endorsing the 1915 general committee plans for beautifying the county and entertaining next year. Notification has been sent to Secretary H. Z. Osborne of the General Committee that the beach organization of business men has adopted a resolution similar to that passed by the Los Angeles chamber.

#### Plymouth Rock Club Meeting.

The Plymouth Rock Club will meet this evening at the club headquarters at No. 330 South Los Angeles street. There will be a report from the A. P. A. meeting now in session at Chicago, and business relative to the new club catalog will be considered. The lead subject of discussion will be "Small Plymouth Rocks Are Bred any Longer?" All persons interested in poultry are invited to attend.

#### Florence Crittenton Benefit.

Westlake branch of the Sunshine Society will give an elaborate garden party on the afternoon of the 23rd inst. at the home of Mr. and Mrs. Robert Marsh, the proceeds to go to the new Florence Crittenton Home. It is planned to furnish and maintain a "Sunshine room" at the institution. The program, which is under the direction of Mrs. E. B. Crowder, president of the society, will include some notable musical numbers.

#### Third in Thirteen Days.

For the third time in thirteen days Mrs. Mary McFadden, 45, No. 1764 West Fifty-seventh street, gave way to despondency and attempted her life yesterday. On the first, she took thirty sleep-producing pills, the normal dose of which is one. They made her so violently sick that her life was saved. Five days later she fired two shots at herself from a revolver. Her aim was so erratic that she did not even scorch herself and threw the weapon away in disgust. Yesterday she returned to poison pills. Neighbors heard her groaning and she was rushed to the Roosevelt Hospital, where it is expected that she will recover.

#### GRANTED PATENTS.

Patents have been granted the following Southern California inventors, those whose addresses are not otherwise given residing in this city: Oscar C. Beach, centrifugal extractor; Ernest B. Brown, vehicle wheel tire; Henry J. Crawford, two-cycle internal combustion engine; Roy Davis, Long Beach, rope clutch for hoists; Edward L. Greenwald, Dinuba, brake for trip-hammers; Thomas A. Hoover, Fresno, bumper for vehicles; Arnold H. Jensen, variable-speed power-transmitting device; Lewis A. W. Johnson, dry concentrator; Berthold Lindemann, suspended railway; August E. Mueller, combination aeroplane and dirigible balloon; Homer S. Munson, Redlands, sprayer; William E. Rhodes, Alhambra and E. W. Potter, water gate; James R. Rickerts and H. V. Leahy, gas regulator; Arthur C. Terrill, Glendale, lock for portable articles; Roswell A. Whitney, electric stove.

#### The Advertising Sense.

[Louisville Courier Journal:] By smoking ten cigarettes in the lobby of the Vanderbilt Hotel just after breakfast, an actress secured a half column of publicity in each of the New York papers. The trick is still easy for those who are clever. The press agent is not needed by those who can eclipse his most brilliant achievements.

#### BUSINESS BRIEVITIES.

## MEMORIAL TO GREAT LEADER.

### IMPRESSIVE SERVICES IN HONOR OF PADRE.

While War Rages in Europe a Statue is Dedicated at Mission San Juan Capistrano to Junipero Serra, Disciple of the Prince of Peace. Plan Big Celebration.

While the armies of Europe were engaged yesterday in bloody slaughter, a far different scene was enacted in California at the old mission San Juan Capistrano. There, under the fallen dome of the once majestic church, a statue in stone was dedicated to the memory of the immortal Fray Junipero Serra, who brought civilization to these shores in the name of the Prince of Peace.

The erection of this statue has long been the dream of the curate of the mission, Father St. John O'Sullivan. The memorial is his own personal gift, and it is among the most striking of the new numerous memorials to Father Serra that have been erected throughout the State. The design, described in detail in the columns of The Times several weeks ago, is a figure of Serra with an Indian boy at his side. The sculptor is John P. van Rensselaer of San Francisco.

The public dedication of the statue will take place November 24, the twenty-second anniversary of Father Serra's birth. Yesterday's ceremonies were in the nature of an ecclesiastical dedication, and consisted of a pontifical mass, which was celebrated by Father Quetu, the parish priest of San Juan Capistrano. At the unveiling an address in Spanish was delivered by Father Miguel Onate of the old Plaza church, Los Angeles, and an English address by Father Zephyr, the noted Franciscan historian of Mission Santa Barbara. Other clergymen present were Father Julius of Los Angeles, Father Dominic of San Luis Rey mission and Rev. Francis J. Conaty.

At the secular celebration in November there will be a gathering of noted people from all over California who will at that time take the first steps in the formation of what is to be known as "The Mission Preservation Society," a State-wide organization to be composed of the people of all creeds and classes banded together to save what is left of the ruins of the missions. The moving spirit of this new enterprise is Prof. Peterson of Stanford University, who has already enlisted in the cause the active support of many eminent California men and women.

### NOTHING IN COMMON.

Nether of Women in Forgery Gang

Wishes to Talk With the Other

In Jail.

Two women who have been on intimate terms, living in adjoining suites in leading hotels and sharing luxuries together, were separated by a concrete wall in the City Jail yesterday.

One was Mrs. K. P. Heim, known as "June the Blonde." She was the consort of George Hammond, master forger, and herself passed checks he had penned. The other was the wife of Ernest H. Carpenter, dapper young tool of Hammond, also under arrest for his part in the ring's operations.

Neither woman saw the other.

"I have nothing in common with her," Mrs. Carpenter answered when asked if she would not care to visit her former associate.

"She should be happy," was Mrs. Heim's comment. "She may have suspected that her husband was guilty of illegal acts, but I do not think she knew for a certainty. She has not the trouble of conscience that I have. She has not sinned."

The local police were yesterday advised that the grand jury had returned two indictments against each of the prisoners and that officers are on their way to bring them back. The San Francisco police and Carpenter, but inasmuch as he was arrested for the Portland police he will be surrendered to the custody of the Oregon officers.

Neither woman saw the other.

"I have nothing in common with her," Mrs. Carpenter answered when asked if she would not care to visit her former associate.

"She should be happy," was Mrs. Heim's comment. "She may have suspected that her husband was guilty of illegal acts, but I do not think she knew for a certainty. She has not the trouble of conscience that I have. She has not sinned."

## SWIMMERS IN MEET TONIGHT.

Venice Tank Scene of Local Championships.

Sprints Should Be Closer Than Usual.

Many Events Have a Dozen Entries.

The swimmers of Southern California meet tonight in the biggest swimming meet in the history of this section of the country.

No less than fifty entries have signed up for this tournament and those who remember the days when it was a hard job to get three men in every event will open their eyes at the sight of twenty men in a single race.

The Venice tank is the only one in the south which would admit of a dozen men lining up abreast, and this makes it particularly adaptable to the needs of this meet.

The fifty and 100-yard dashes promise to be particularly thrilling. Guy Sylvester of the L.A.C. and Ray Howlett of the Y.M.C.A. and Ray Henderson and Bob Howard of Redondo look to be the favorites in the sprint.

The 220-yard dash should go either to Ed Tuttle of the L.A.C. or Ray Henderson. Henderson is the speedier man, but Tuttle is in fine shape.

The 440 and 880 and Ted Burns, Frank Riva and Pete Lenz, all of the L.A.C., as the favorites although there are no less than a dozen men entered in each of these events.

The relay between the L.A.C. and Redondo promises to be the hottest thing of its kind ever seen on the Coast. Both teams are out for blood and whichever team finishes in front will do so by a short nose.

## FROM THE FACTORY TO BATTING KING.

Ten days ago "Hank" LaFleur was playing on one of the factory league ball clubs in Saginaw and was picking up a dollar or two playing in the outfield on the first day of the week. He was signed by Toledo when that club was in dire need of players, and immediately jumped into fame as a swatter of the ball. Now he is the leading slugging of the circuit, and is hitting near the .400 mark, and has been named by three clubs in the league, and it looks as if he would land in Kalamazoo in a three-cornered deal in which Leonard Cole and Tom Sharkey are involved.

## EIGHTEEN-INNING GAME STARTS ROW.

ANGEL AND TIGER ROOTERS CLASH UNDER THE BLEACHERS.

There was a lively little battle under the right field bleachers before the game Wednesday. Two fans started an argument over the question of whether or not Hap Hogan was quick thinker. After the anti-Hap advocates had cited ten reasons to prove Hap is slow in grasping a situation, the Venice rooter ended the argument by soaking the Angel fan on the nose.

FRANCO-TURKISH FACT.

A New Agreement Between the Countries Will Be of Great Benefit to the Syrian Country.

[Philadelphia Record:] The recent Franco-Turkish agreement, which will be signed in the near future, containing upon the declaration of peace, will be of vast importance to Syrian consular district. The construction of a port in Jaffa and the linking of the Jaffa-Jerusalem Railway with the Beirut-Damascus line will not only open up the country to increased traffic, but a new era will be created in commercial activities.

Practically all the commerce of the Jerusalem consular district passes through Jaffa. At present only small coasting vessels can penetrate within the belt of dangerous rocks that encircle the port. Steamers and ships are landed in large sun boats. In bad weather even this is impossible, and during the winter there are periods of weeks at a time when no connection can be made with the mainland, and ships are obliged to continue their journey to the next port. Hence, it will be seen what a boon the new port will be to the country.

In 1910 bids were opened by the Ottoman authorities for the construction and operation of a commercial port, but in view of the natural difficulties to be overcome, the large investment required, and the inadequacy of the revenue to be derived, very few legitimate offers were submitted.

The present concession, undertaken by the Jaffa-Jerusalem Railway Company (a French company), will commence operations next summer over an area of 27,000 square meters and the works will cost \$5,000,000. The entrance to the port will be from the northeast.

The railway concession will run from Rayak, on the Beirut-Damascus line to Lydda on the Jaffa-Jerusalem line, thus developing the rich plains of Esdraelon and Sharon, and making it possible to journey from Jerusalem to Constantinople by railway via the Aleppo branch of the Baghdad line.

## ANOTHER PRIZE FOR TRUCK RACE.

John Graf Zobelet, vice-president of the Los Angeles Brewing Company, added a trophy to the motor truck reliability contest prize list yesterday.

The Zobelet trophy is to go to the winning truck in class "C." Zobelet is an operator of a number of motor trucks and he is greatly interested in the sporting event started by the Motor Truck Dealers' Association.

He modestly requested the officials to be allowed to put up a cup for the run.

## Cack Henley Wins Own Game With Double.

Henley Wins Own Game.

(Continued from First Page.)

Bill had gone over towards second to do the covering act with Abelein racing from first base. The Angel first sacker went all the way to third on the jolt. Johnson platted, base hit number three into left and the first run came over. Brooks walked raising the base population to an even dozen. Ryan was a victim of Henley's rejuvenating curve ball. Wolter pelted at first and the first bit of excitement and passed.

The Angel came right back in the third and made their second and, incidentally, last run. Metzger flew out. Cack then proceeded to plant a pitched ball on Magger's ribs. Abelein busted out with a hit and Bill duplicated with a blow that scored Magger.

After blanking the Tigers for five innings Ryan wobbled long enough in the sixth and seventh to allow the Venetians to tie the score. With two outs and the sixth Borton singled to center and Litchi smashed a triple to right with one run resulting. Wolter was playing well over towards the end of the theory that Louie hits into the left field corner some nine times out of ten.

Again in the seventh the "two" situation failed to stop the Tigers. Charlie tripled up against the right field bleachers and Moore heaved the ball far over third base on a relay allowing Wolter to score the tying run. Ryan should have been backing the play up but, instead, stood in the middle of the diamond and watched the progress of Charlie and the ball. An unpleasant sight for Jack at the bat.

Then came the ninth with Litchi getting plugged by Ryan. McArdle scored his second and he held there while Metzger threw him out at first. Cack had fanned once and dribbled two easy grounders down to short so that few people considered him very dangerous. He crossed his friends and enemies by slugging the first pitched ball of his career for a double, clearing to the left field fence and the foul line. Litchi scored and Cack pulled up at second, not because he couldn't have made

third, but because his wind and legs prohibited him from further navigation without a landing. Lead now out.

Dillon had his men fighting hard in the last of the ninth but in spite of a hit by Johnson and a beautiful error by Carlisle, they failed to do any scoring. Dad Neck was called into service as a pinch hitter in place of Moore. Dad grounded out while the home run of the preceding day. Johnson singled to center and raced to third when Carlisle dropped Harper's fly. Harper made second. Ryan swung nobly but his swings counted and he was replaced at the plate by Wolter. Henley walked Wolter, purposefully and Metzger passed away by the Litchi and Borton route. The score:

VENICE

## Broadway Gossip.

## TRIXIE GOES INTO MOVIES.

Stars Coming to the Mason This Winter.

Rainey Hunt Pictures Return to Majestic.

Chatter of the Theaters and Foyers.

The expansive Trixie Friganza needed the whole of Southern California for a stage. For behold, she invades Celluloid Circle. In other words has become a movie star. For the past three days the frolicsome heavy-weight comedienne has been taking her breakfast, dinner and supper off the top of the camera of the Majestic Film Company. Fire engines have stoked up the Los Angeles River has put on a dress rehearsal, and even one of the headache factories known as a summer school slowed down the other day while Trixie did a stunt that sure made the movies move. She will appear for the first time in any film next Monday at the Orpheum. The pictures are being taken for the Automobile Club of Southern California, and will show traffic conditions.

The Majestic Theater will continue to move the movies also, after taking one week off. Week after next the Rainey Hunt pictures will be shown, after which the house, beginning September 29, will settle down to business with "Too Many Cooks," the play that's been delighting the New York Broadway for a year.

The Mason will light up about September 1st, also; the dates are as yet uncertain. During the early part of the fall Miss Hayes, in "Sari," Maude Adams and David Warfield, also "Potash and Perimeter," will show, which sounds like something to suit every taste.

Tony Gallenti, "the infant phenomenon" at Pantages, who can blow and hit about every musical instrument there is, is a great big fighter. He's so crazy about the movies that yesterday when it was time for him to show up at the theater he no Tony was to be seen. His sister searched in vain. No Tony. Finally at the last minute he showed up. Where had he been? Out at Hollywood, acting for the movies.

"Wanted to see how I looked in 'em," the small genius explained, grinning sheepishly.

After Miss Friganza's engagement with the Orpheum is closed she means to visit Catalina Island and fish for tuna. She's going to hire a yacht, and stay until she's caught a "meat," anyone.

Napoleon, the general of all chimpanzees, at Pantages, is generally lauded. This is no reflection on his proprietors, but simply a chimpanzee characteristic.

A lady in one of the boxes a few evenings ago, when he was on the stage, bent over in a spirit of fun and offered him some candy. He made no polite pretenses of refusal. No sir, she said, that monkey just naturally climbed up and grabbed that box of chocolates, and ran back to the stage growling, and you'd have had to chloroform him to pry him loose.

Betty Byrne, the Los Angeles girl, who made such a hit at Pantages, has gone to Seattle to appear in the Pantages Theater at that place. It is rumored there's a scout for a big eastern vaudeville circuit who has been observing her act.

Any of the beautiful tenor voices, who is appearing at the Empress this week, and has played the lead in the "Chocolate Soldier" in times gone by, has always been a mainstay. In these days he receives much notice for the millions. But he always turns them over to his wife. Strange to say, she looks for all the world like him. One day this practice saved his life. The note read: "Meet me tomorrow in Blank Park. Wear a red rose." Wife went prepared to meet some melting-matinee girl. Instead she sighted a bug husky fellow, who glared at her, started, and finally came forward. "I beg pardon. Didn't know you were a woman, dressed as a man. My girl got stuck on you the other night, and I came out here to beat you up."

**SNAPPY FIGHTS ON AT JOCKEY KELLY'S.**

**DUMMY CLASSEN MAKES BILLY NOLAN QUIT; BURNS STOPS YOUNG GREEN.**

Jockey Kelly put on some great fights at the St. Ignace Club last night and a house of nearly 600 rabid fans enjoyed the proceedings.

The banner event of the evening was the manner in which Dummy Classen stowed away Billy Nolan, ex-amateur middleweight champion of Canada and all points north. The Dummy hit Nolan a clout in the kitchen and the amateur dreamed of his home and wished he hadn't left Brenton from Young Nolan.

George Lammerson, ex-amateur champion of Southern California, won a four-round decision from Buster Miller in handy fashion, as did Dick Brenton from Young Nolan.

Fighting Lee and Paddy Mills put on a terrific four-round rough-house which was declared a draw and Kid Burns provided the only real knock-out of the evening, when he floored Young Green for the count in the third round.

Frank Holbrow did the officiating and his decisions were very well received.

**Congress Can Do Without Prayer.**  
[New York World:] Representatives of Ohio told the House of Representatives why Congress opens its meetings each day with prayer. "A constituent of mine was in the gallery a few days ago with his young son," said Mr. Fess. "They watched the speaker rap for order, and heard the Chaplain lead in prayer. The son asked the father why the body needed a clergyman and the prayer."

"Congress does not need prayers, my son," the father replied, "but the Chaplain looks at the Congress and then prays as hard as he can for the country."

**Strength of British Sentiment.**  
[Brooklyn Eagle:] No man and no party opposed Austen Chamberlain's election to his father's old seat in Parliament from Birmingham. The son is elected unanimously. Sentiment is still a factor, a human and wholesome factor, in British politics.

"Come on in—the water's fine!"

Grace Valentine, the former Los Angeles favorite and heroine of Oliver Morosco's production of "Help Wanted," enjoying a dip in Lake Michigan.

## Magazine's Opinion.

## WAR TURNS VAUDEVILLE UPSIDE DOWN—HARRIS.

**M**ORE than two thousand acts, most of them foreign, but some, well-known American headliners, which were booked to play vaudeville engagements in this country during the coming season are now marooned in Europe on account of the war and there seems little possibility that any of them will be able to fill their engagements here," declared Sam Harris, managing director of the Western States Vaudeville Association to a Times representative yesterday.

Mr. Harris came down from "Frisco" yesterday in the interest of his circuit, and also the Annette Kellerman pictures, for which he holds exclusive rights, and part of his multiple duties is to supply over fifty theaters on the Coast with their attractions.

"The war will turn vaudeville upside down," he added. "More than 50 per cent of the best gymnastic acts are lost to us for the time being, and the same is true regarding the larger musical acts, the majority of which come from the other side."

"In the meantime the American acts, over there playing engagements or seeking new material, are unable to get back, Spain being almost the only outlet for them, and they have to traverse hostile territory to get there."

**NEW ACTS IN DEMAND.**  
"In fact, new acts will, in all likelihood, dominate the vaudeville, 1915, for, with the supply of good acts more than cut in half by the war, American managers will have to depend on home talent to complete their shows. That is the reason why, even now, you read almost daily of local talent receiving immediate bookings."

"How about Australia?" Mr. Harris was asked.

"All-American bills will be the rule rather than the exception and astute managers are bending every effort to 'discover' new talent."

**NORTHERN PAPER CAN GUESS AGAIN.**

**HAD RELEGATED MEER TO THE SCRAP HEAP, BUT HIS HOMER COMES.**

"Dad Meer is quite a joke with the local fans. He is as slow as a dray moving along with a ton of coal, and if he is a real hitter then it is up to him to show the fans in this section. He is carrying along a .223 batting record, and it is a cinch that it will be ".23" for him after this season, as far as the Coast League is concerned."

The above is the opinion of a few of our "highly respected" baseball critics of the north, as expressed but a few days ago in a San Francisco paper. We cannot help but wonder in what light these same "critics" now look at the performance of this same "joke." Dad Meer not only saved a game for his team, but drove out one of the longest hits ever seen on the local diamond in Wednesday's game. Yes, verily, the wisdom of our northern friends is truly wonderful to behold.

"We gain in proportion as Australia loses," replied the Western States magnate, who, among other theaters, presides over the destinies of the Hippodrome.

"During the last two years the demand in Australia for American acts has grown tremendously. In fact, the native talent, and that imported from Europe, is not in demand at all."

**WOULD BAR AMERICANS.**  
"In fact, just before war was declared, a movement was started in Sydney and in Melbourne, to bar American acts, because they were getting too popular. The war makes this needless, for Australia, being a part of England, is prey for Germany, and any act that goes out there now is liable to get captured en route."

"The result is that some five hundred first-class American acts and foreign acts, which chanced to be in this country and which were booked for Australia, probably will cancel their island time and remain here, helping to fill in the gap made by those which cannot cross the Atlantic."

**NEW SONG STUNTS.**  
Mr. Harris asserts that the acted song and the animated song are the latest vaudeville wrinkles. The first, he explains, gives a song a stage setting and, as the theme is unfolded, the players enact the plot in the setting described in the song.

"We borrowed the idea from the English, but certain teams on this side have improved on the original a whole lot and, in the East, have scored heavily. I have already booked several novelties of this sort for the Hip and I know that both the Loew and Orpheum circuits will offer them, too."

"The animated song is an elaboration of the old and always popular illustrated song of a decade ago, motion pictures telling the story of the song, being shown during the singing. We have already tried this on the Coast, Grace Allen introducing the fad, and it has caught on in fine style."

**ONE ROUND HOGAN EASY FOR KELLY.**

**MONTEITH'S BOY FIGHTS SO WELD THEY WANT HIM TO MEET RIVERS.**

[BY HERBERT WILK—RECLINING DISPATCH.]  
EL PASO (Tex.) Aug. 12.—Harlem Eddie Kelly decisively defeated One-round Hogan of San Francisco in a hard-fought battle that went the scheduled twenty rounds in the Juarez arena tonight.

Hogan was knocked down twice in the eighteenth round, but Kelly was unable to finish him. Hogan by continual clinching managed to last the final three rounds.

Kelly showed a great improvement and was given a rousing reception by the large crowd.

Impressed by the brilliant work of Kelly, the promoters of the Pastime Athletic Club are now making efforts to secure Joe Rivers to meet Kelly on Labor Day at Juarez.

## Shows Too Much Pep.

(Continued From First Page.)

cup, since the conditions call for the best three out of five matches.

Wilding and Williams appeared on the court at 2:15 o'clock, at which time the stands were filled with an assembly which from a social standpoint equaled the gatherings at Mead-

17-15, is a new world's Davis cup tennis record, the Wilding-Lowe match in Boston last week of 16-14, being the best previous record.

The points score, first set:

Brookes 314 040 514 200 414 202 414 143 404 190 40  
McLoughlin 042 244 241 504 143 445 243 425 172 474 09

Brookes took all the time he could, being apparently very much exhausted by the first set. He lost none of his skill, however, simply speed. McLoughlin began to put full strength into his drives and mixing skilfully, placed lobs in with his cannon ball smashes, kept Brookes running about until the Australasian was so leg weary that he could not cover his court.

In the closing games the California expert easily outpaced and outgeneraled his opponent. The point score, second set:

Brookes 314 140 430 0-22-3  
McLoughlin 344 040 423 4-63-4

Brookes made a desperate stand in the third set, calling into service all his skill. He held the fiery Californian in check with beautifully placed shots until the score stood 30-30. It was a wonderful exhibition by a player eleven years older than McLoughlin, but youth was served and McLoughlin ran out the third and deciding set of the match, six games to three. The point score, third set:

Brookes 044 140 430 0-22-3  
McLoughlin 404 114 200 4-63-4

Stroke analysis, Davis cup match, first day:

First match, Anthony F. Wilding, Australasia, vs. R. Norris Williams II, United States:

**FIRST SET.**

Williams 10 11 15 14 7

**TESTING DOUBTFUL DIAMONDS.**

Simple Ways in Which the Genuine Can Be Proved—The Water Test Is a Good One.

[London Answer:] Marvelously beautiful as are the imitation diamonds of today, an experienced eye never mistakes them for the genuine article.

The average person, however, can easily be deceived, and the following simple tests should assist him when striking a bargain. The facets on a real diamond are rarely so regular as those of really good imitations. With the latter the greatest care has to be taken in grinding and polishing, so that there shall be no irregularity in the reflections of the light.

A file cannot scratch a real diamond, but quickly infuses an imitation. A sapphire is the next hardest stone to a diamond, and is an even better test than the file.

Thrust a diamond ring into a bowl of water and the stones will glitter through the liquid, but an imitation stone loses all its brilliancy under water. If you look through a diamond at a black spot on a piece of white paper you will see one black speck quite clearly. If the dot is blurred or multiplied the stone is not genuine.

Place one drop of water on the face of a diamond, test the point of a needle—the genuine has its globular form and the main dry. If the brilliant reflection the water at once is

## COMEDIES AND TRAGEDIES OF SNOBBERY

Article  
By Frederick Townsend Martin.

Why is a snob? Mr. Martin, author, clubman and a humorist "Ward McAllister," has encountered many snobs in the highlands of this country and Europe, and has been amused at some and amazed at others. He talks about them frankly and cleverly in this posthumous article found among his papers and published by permission of the executors of his estate.

## THE HEAVY TOLL OF MISSING SHIPS

Editorial.  
By Senator Elfin Root.

Senator Root comes out flat-footed and says that the present lament of an American Merchant Marine is the most important proposition now confronting the American people. We cannot compete with Europe for the rich plums of Latin-American trade so long as we must ship our goods in foreign bottoms. And American shipping has been driven of the Pacific by the subsidized lines of Japan.

## THE PRINCE OF GRAUSTARK

Serial Story.  
By George Barr McCutcheon.

The Prince of Graustark and the mysterious Miss O'Rourke arrested for motor speeding in Paris and are arraigned in court. There is a dramatic scene in which their identities are disclosed to the magistrate. Robin is more than ever infatuated with his companion, whether she be Miss Bithers or not. Indeed, the reader will not discover who Miss Gulle really is until some twelve lines from the end of the story.

## TABS ON THE FAMOUS

By Fred B. Kelly.  
John Sharp Williams, Senator Lippitt, Victor Mendenhall, Senator Works, and other Washington notables are put on the grill this time—and it is to laugh at, with and about them.

## ELFIN

Poem.  
By Madison Cawein.

Now and then it is possible for a magazine to secure a poem of quiet power and magic. Here is one to read and remember.

## SIR THOMAS LIPTON

is very soon to dispute the yachting supremacy of America. That America has no anxiety as to the outcome of the race is amusingly shown by Charles A. MacLellan in his picture, "The Defender," reproduced in colors on the cover of

## HOBBLES ALONG ON TWO NAILS.

Lad's Thighbone Carpenters to Appear in Court.

Injured While Fleeing from Wrath of the Law.

Woman Dies While Husband Sits in Next Room.

**PASADENA, Aug. 14.**—After passing four months in the County Hospital, Harvey Light, a boy about 19 years old, appeared yesterday morning before Judge Robert W. McDonald with two eight-penny nails holding the thighbones of his right leg together, to plead not guilty to a charge of malicious mischief alleged to have been committed in Dead Man's Canyon the night of April 18. For the rest of his life Light will be compelled to walk with a limp, for he cannot bend his knee more than two inches.

The trial is set for Tuesday morning, August 18, and at his request he will be tried by a jury. The charge, which is a misdemeanor, was preferred against him by F. A. Roehrig. The lad was occupying a cabin with two companions in Dead Man's Canyon on the night of April 18 when they were ordered out by Teddy Sylvester. In attempting to escape, Light jumped from a window and ran fifty feet in the dark, falling over a thirty-foot cliff into a pool of water. Breaking his leg in two places, and almost drowning.

Sylvester and the boy's companions, Dr. Harman and Eddie Hayes, went to his rescue and he was taken to

the Pasadena Hospital, where for nine days he lay unconscious and in delirium, his leg swollen to twice its natural size.

The boy began to improve at once after the surgeons had driven the nails through his leg much in the same manner as if they were nailing two pieces of broken broomstick together. Yesterday he was dismissed from the County Hospital as cured and came here immediately for trial.

He claims that he had permission from Roehrig's partner to occupy the cabin and that he and his companions did not break in, as charged, but entered through the door which was already open.

It is a singular fact that Light had to bear almost all of the suffering, both mental and physical, relative to his and his companions' experiences in Dead Man's Canyon on that cold April night, and he claims that he went to the cabin by invitation of one of its owners.

**DIES UNATTENDED.**  
Mrs. Lena M. Jones lay cold in death upon her bed for more than two hours yesterday before her lifeless body was discovered by her husband, Edwin E. Jones, of No. 783 Sunset avenue.

Death followed a severe epileptic fit. The certificate of death, signed by the coroner, gives as the cause valvular heart disease.

Mrs. Jones was subject to these fits and had a severe attack at 5 o'clock in the morning, but later, becoming more quiet, her husband left her, thinking that she was asleep.

At 8 o'clock, however, Jones, growing alarmed at her long sleep, entered her room, to find her cold in death, she having been dead for some time. The couple were married about five years ago, after Mrs. Jones was divorced from a former husband, Harvey Miller. Mrs. Jones was 39 years old, while her widower is 65. Funeral services will be held tomorrow afternoon at 2 o'clock in the chapel of the Pasadena crematory.

**APARTMENTS LOOTED.**  
Burglars entered two apartments in the house at No. 140 Worcester avenue, last night, and stole a large quantity of jewelry, including a diamond ring, a watch, and a large sum of money.

The burglars also stole a large quantity of clothing, including a suit, a shirt, and a pair of trousers. The value of the stolen property is estimated at \$500.

The burglars also stole a large quantity of household goods, including a refrigerator, a stove, and a large number of dishes. The value of the stolen property is estimated at \$1000.

The burglars also stole a large quantity of furniture, including a bed, a chair, and a table. The value of the stolen property is estimated at \$500.

The burglars also stole a large quantity of clothing, including a suit, a shirt, and a pair of trousers. The value of the stolen property is estimated at \$500.

Fannie M. Smith, had a gold bar-pin valued at \$10 and a silver taken from her.

Entrance was obtained to both apartments with a pass key, and the burglar was so bold that he did not attempt to be unseen, and occupants in other apartments thought he was a neighbor, walking about his room. There is no clue to his identity as yet.

**DANGEROUS CONDITION.**  
Rev. George Morrison, pastor of the North Congregational Church, who for a month has been suffering from poisoning, suffered a relapse yesterday at the Marengo-Avenue hospital, and was too ill to sit up all day yesterday.

While fishing about a month ago in the Arroyo Seco, he ran a fish bone into his hand, but thought nothing of it until a week afterward, when the wound grew so painful that he was taken to the hospital where it was ascertained he was suffering from blood-poisoning. The poisoned condition seemed to permeate his entire body and for a while his life was despaired of. He has been improving lately and was looking forward to being well enough to leave the hospital shortly.

At present, it is said, lies in the balance, though physicians say they cannot tell just how the relapse will terminate.

**HUNDREDS OF TONS OF HAY BURNED.**  
A GREAT FRAME WAREHOUSE GOES UP IN RED FLAMES AND BLACK SMOKE.

**COVINA, Aug. 13.**—A gigantic frame warehouse of a vintage of many years ago, owned by the Baldwin estate at Pueno, furnished a fiery spectacle for 700 tons of baled hay this morning shortly after 10 o'clock. The flames were first seen issuing from one of the side entrances of the old building, and before Pueno citizens could possibly to fight the fire the great building was a roaring furnace. The town possessed no fire-fighting apparatus, and nothing could be done except to watch the blaze, which shot hundreds of feet into the air. It was the hottest fire the valley people have ever seen.

W. R. Hudson lost 150 tons of baled hay; I. F. Reynolds, 200 tons; Lemuel Brothers, 200 tons; Morris Brothers, 200 tons. The latter fire was the only one in which the hay was insured, all others suffering a total loss, reaching probably \$7000.

**FIRE FOLLOWS PISTOL SHOTS.**  
MEXICAN REAMED FOR BIG SCHOOLHOUSE BLAZE IN SAN BERNARDINO.

**SAN BERNARDINO, Aug. 13.**—Revolver shots and sounds of a fight emanated from the West Fifth-street schoolhouse just before it broke out in fire last night and it is thought Mexicans started the flames, which reduced the building to a complete ruin and caused a loss of almost \$5000.

When the alarm was sounded the central department was fighting a stubborn blaze in the rear of the City Bakery on Third street, and the Pennsylvania department handled the school fire until the main company arrived. The equipment of the building was not burned in figure as a loss as a result of the tons of water poured in on the burning structure.

The problem of providing facilities for almost 200 Mexican children by the opening of school on September 1st now faces the Board of Education. Hurried steps will be taken for the reconstruction of a larger building, it is stated, for the old structure hardly accommodated the pupils of the institution. It is feared that the pupils of the district will be forced to wait several weeks before the new building can be opened.

The fire will probably hasten a contemplated bond issue for \$100,000 for grammar schools, it is declared.

**INJURED IN RUNAWAY.**  
Mrs. F. W. Nett, of No. 282 Western avenue, jumped from the wagon jerked recklessly down the West Fourth-street hill by a runaway team and was injured.

The team, owned by the Nett family, was driven by the Nett family. The team was jerked down the hill by a runaway team and was injured.

## STRIPS COAT BENT ON WAR.

San Gabriel Trustee Invites Colleague to Fight.

Mayor Is Peacemaker and Prevents Fisticuffs.

When Peace Is Declared the Bridge Goes Up.

**SAN GABRIEL, Aug. 13.**—Tearing off his coat and throwing his cane clattering into a corner, Trustee C. A. Brumough rolled up his sleeves and invited Dr. D. Frank Johnson, also a trustee, to fight with him on the back yard Tuesday night, in the most sensational meeting of the City Trustees here ever held.

Dr. Johnson, who is a stalwart man perhaps twice as large as Brumough, and an athlete, merely smiled at his frate colleague, and the other Trustees, also worked up to a fever heat in a dispute over the Mill-creek bridge, calmed down sufficiently to step in front of the would-be belligerent and prevent the opening of hostilities.

The meeting was a star-chamber session, but so forceful was the row over a piece of property, required in an easement for the aforesaid bridge that the reverberations of the verbal combat could not be held in by mere walls and the news quickly spread about town today.

It appears that Trustee W. C. Muloch, of the second ward, allowed the frontage on one side of the bridge over which an easement is necessary to build the structure. In between the two sides of the bridge, only a fraction of an acre, which until recently was owned by a Mexican named Lopez.

Muloch's attention was particularly called to this Lopez strip by the negotiations for the easement, and he decided to buy it. He bought it for \$1000, and the title was transferred to him. He then offered it to the city for \$1000.

The city refused to buy it for \$1000, and Muloch then offered it to the city for \$2000. The city refused to buy it for \$2000, and Muloch then offered it to the city for \$3000. The city refused to buy it for \$3000, and Muloch then offered it to the city for \$4000. The city refused to buy it for \$4000, and Muloch then offered it to the city for \$5000. ## Public Service: City Hall, Courts.

## SUMMARY OF THE DAY.

A report made public yesterday shows that the City Engineer's office during July received orders for paving more than seven miles of streets. The department has on hand orders for \$1,735 miles of street paving.

L. F. Lowe, president of the Economic Gas Company, came from San Francisco yesterday to confer with city officials regarding his proposed ordinance to regulate the giving of bonuses by gas companies to customers.

Plans and specifications were submitted yesterday for the proposed reinforced concrete bridge across the Arroyo Seco at Avenue 43.

## At the City Hall.

## ORDERS MILES OF NEW PAVING.

## CITY OFFICIALS FORWARD BIG IMPROVEMENT CAMPAIGN.

Engineer's Office Shows Much Activity in Street Betterments and Vast Amount of Work Provided for During Past Thirty Days, With More on Board.

The summary of street improvement orders received and disposed of during the month of July in the City Engineer's office, compiled by H. Z. Osborn, Jr., and reported to the Public Works Committee of the Council yesterday by Assistant City Engineer Hansen, presents figures showing widespread activity in street improvement.

The City Engineer's office is in constant receipt of orders pertaining to street improvements; it also is constantly engaged in carrying out the orders already approved by the City Council. It has gained on the "backlog" more than two miles of streets during the month of July. That is, it has worked out to a final conclusion this much more of street orders in hand than orders filed for new situation.

This summary shows that orders were received during the month for 7,213 miles of paving. There were disposed of during the month orders for 3,780 lineal miles of paving. There remained on hand August 1 orders for \$1,735 miles of paving. There were 368 orders of this character in the hands of the City Engineer at the beginning of the present month.

During the month there were received thirty-two new Vrooman-act orders; one 1913-act order and three private-contract orders, making a total of thirty-five new orders.

Fifteen Vrooman-act ordinances were presented, also three 1913-act ordinances and three providing for private work. The Council received orders for nine Vrooman-act proceedings and ten private-contract orders. It also received five combination orders, making a total of thirty-five orders disposed of during the month.

## SERVICE BONUSES.

## CONFER ON PROPOSED LAW.

L. F. Lowe, president of the Economic Gas Company, came down from San Francisco yesterday to participate in a conference with the City Attorney on the subject of the ordinance which Mr. Lowe proposed several weeks ago to control the giving of bonuses in the way of special service by the gas companies. This ordinance is still under consideration by the City Council.

While at the City Hall yesterday, Mr. Lowe stated that he believes the introduction of a classified sliding scale for the use of natural gas in industries should be applied in Los Angeles, and that it is only a matter of time when this will be generally demanded.

He stated that as soon as the Southern California Gas Company gets its pipe lines in condition to carry to this city the maximum flow of natural gas from the Kern fields, the Economic company expects to distribute pure natural gas on a classified sliding scale.

## ACROSS ARROYO.

## CONCRETE BRIDGE PLANS.

Plans for the general improvement of the Arroyo Seco were advanced a pace yesterday when the City Engineer submitted to the Board of Public Works the plans and specifications for the proposed reinforced concrete bridge across the Arroyo Seco at Avenue Forty-three. The board approved these and adopted a resolution asking the City Council to authorize it to immediately advertise for bids for the construction.

The new budget contains an item of \$28,000 for this bridge, but efforts were made yesterday by property owners on the west side of the arroyo to have this money diverted for the purpose of riprapping the west bank as a protection from further encroachment of flood waters. This raised a storm of protest from property owners on the eastern side of the Arroyo Seco, particularly residents of Hermosa and Montecito Heights.

The specifications provide that the bridge construction shall begin within ten days after the contract is awarded and that the entire work must be completed within 120 days thereafter.

## FILL ADVANTAGEOUS.

## WAIVERS MUST BE FILED.

The proposal to use the earth taken from the improvement of Sunset boulevard, between Main and Marion streets, for the purpose of bringing to established grade North Figueroa street, between New Depot and College streets, while favored by the City Engineer, presents some complications.

The City Engineer reported the situation to the Board of Public Works yesterday. Improvement proceedings are now pending under the 1913 act that include the same fill it is proposed to take care of by private work. A very considerable saving to the property owners would be effected by the use of earth from Sunset boulevard on Figueroa street.

The improvement of Figueroa street, however, is to be made on newly established grade lines and the fill will be fully ten feet above some of the existing lots. Claims for damages will probably be made if the proceedings continue as provided for in the 1913 act. If the fill is made on permit then no opportunity would be provided for the assessment of damages.

The City Engineer recommends that permission be granted to C. Hillman to make the fill, provided a waiver be presented signed by the owners of all of the property fronting on North Figueroa street, between New Depot and College streets.

## Happenings at City Hall.

The contract has been approved between the city and the Newell Mathe Company, whereby the latter is to furnish the municipality with six Studebaker air-pressure street flushers. The large area of new paved streets has made such a demand upon the street-flushing department that the present equipment is entirely inadequate to perform the services required.

The City Council yesterday referred to the City Attorney the subject of prohibiting girls and women from conducting pennant stands where dice are shaken for pennants. He is to devise a method, if possible, to control this matter.

In a discussion in the Council yesterday over proposed raising of rates for certain private water companies, members of the Council expressed the hope that the Public Service Commission will hasten action in the city's acquiescence all such concerns as the only solution of a troublesome question.

## At the Courthouse.

## KILFOIL LET OUT ON BAIL.

## POOR HEALTH GETS FREEDOM FOR HIM TEMPORARILY.

Three Doctors Testify Longer He Is Confined Sooner Death Will Come—Judge Sarcastically Says Health of All Prisoners Would Benefit by Release.

Phillip A. Kilfoil, who was sentenced to twenty years in San Quentin May 18, last, after having been found guilty of mistreating Miss Lillian Palmer, 15 years of age, was yesterday released from the County Jail a free man, temporarily.

Kilfoil was given his liberty late yesterday afternoon on \$5000 bonds. After three doctors had testified before Judge Willis that Kilfoil would die within a short time if his confinement continued.

After hearing the testimony regarding Kilfoil's health, Judge Willis said he would fix his bond at \$5000, with the understanding that Kilfoil was not to make any effort to communicate with Lillian Palmer. He said he would issue a bench warrant for him, place him in jail and exonerate his bondsmen if he made such attempt.

Kilfoil presented an appearance far different than at the time of his trial in May. He entered the courtroom slowly from the "bridge of sighs" and limped as he walked to his chair. His face was drawn and white. His clothing hung loosely over his emaciated frame.

Drs. F. M. Tyron, M. R. Bruin and W. H. Tyler, each testified that Kilfoil was examined August 8, at which time he was found to be suffering from tuberculosis in both lungs, an enlargement of the heart and decrease in vitality. They said continued confinement would result in his death.

"I have a very strong opinion in this matter," said Judge Willis, "but it is not necessary to state it. It seems to me that if it is necessary to save Mr. Kilfoil's life, that he be permitted to leave the jail. No doubt all the gentlemen in the County Jail would have their health benefited by being released, but it is just as true that the community at large would not be benefited."

"I am satisfied that neither one of these diseases of which he complains was acquired in jail. I am convinced that he had them in incipient stages for years, and confinement and worries resulting from his predicament no doubt helped them along."

"I recently received a letter from Mr. Kilfoil, in which one page is devoted to his hard lot, and heart-drawn and the remainder is devoted against Asst. Dist. Atty. Ford, in which he complains that Mr. Ford had refused to permit Miss Palmer to visit him in the jail. Mr. Ford did right."

"If you make any effort to communicate with this girl, I will have you brought back and placed behind the bars. The relations that have existed between this defendant and Miss Palmer have caused enough trouble and the result was that Mr. Kilfoil was found guilty and sentenced."

"Will you promise not to communicate with Miss Palmer?" asked the judge of Kilfoil, who was standing before him.

"Well, Your Honor, I promise as far as I am concerned, but what am I to do if she tries to communicate with me?"

"You can arrange that."

Kilfoil then promised to carry out the judge's instructions. The attorney and bonds were furnished by Alfred Gwynn and Frank R. Strong, former employers of Kilfoil.

Kilfoil left the Courthouse with his brother and sister Julia. His attorneys have appealed to the Appellate Court. A decision is expected shortly.

## BRINGS TEARS.

## DRAMATIC COURT SCENE.

A dramatic arraignment of the treatment of Mrs. Rayner by her husband and her blood relations marked the close of the argument for the plaintiff in the Rayner-Genshler case in Judge Genshler's court yesterday. The argument was presented by Jud Rush, who spoke of Mrs. Rayner so feelingly that few eyes in the courtroom were not tear-dimmed when he concluded.

Mr. Rush declared that Mrs. Rayner has been kept a prisoner in the home of Charles J. Genshler, her son-in-law, on Pasadena avenue, and that those nearest and dearest to her have not been allowed to see her. He also pictured her as a woman whom everyone loved, and said it was only natural that her nephews and nieces should desire to see her occasionally.

At the conclusion of Mr. Rush's argument, Judge Jackson called Mrs. Rayner and Mr. Robert P. Campbell, her only blood relations of Mrs. Rayner in the courtroom, and asked them whether their attitude would be if the court issued an order that they be allowed to see their aged aunt. Both declared there would be no scene, and the attorneys for the defense interposed no further objection. The order applies to other relatives also.

The trial will be concluded today with the presentation of the argument of the defense.

## OUTLAWED?

## NOVEL POINT RAISED.

A nice point of law was raised in Justice Summerfield's court yesterday when Frank H. June asked the court to enforce payment of a judgment against Arthur L. Kemper for \$12,500, granted by the Municipal Court of Cook county, Illinois, June 20, 1907.

Mr. June filed his suit in the local Justice Court June 13 last. In the Illinois courts a judgment is out-

lawed after running seven years, but in the California courts the term is only five years. Mr. June's suit to enforce the Illinois judgment was filed in seven days less than seven years from the time of the granting of judgment.

Kemper removed to Los Angeles from Chicago more than five but less than seven years ago. His contention was that the California statute obtained—that is, that the judgment had been outlawed in the California courts, although not in Illinois.

Justice Summerfield ordered an adjournment to allow the plaintiff, who is in Chicago, to make an affidavit, and to give the defendant time to submit points and authorities to prove his contention.

## KISSES HIS WIFE.

## SHE OBJECTS STRENUOUSLY.

Mrs. Julia A. Sloan told Judge Monroe yesterday in Divorce Court that her husband, Russell R. Sloan, had chased her around an orange grove and up a lane in his pursuit of her and had kissed her twice on the back of the neck without her consent for the sole purpose of compelling her to say she loved him.

Mrs. Sloan was backed up in her accusation by a dozen ranchers and their wives, who reside near her home at Azusa. Mrs. Sloan sued for divorce a year ago, but a decree was denied. Sloan at that time, however, was ordered to pay her \$50 a month alimony and give her custody of the child of the Sloan residence. That he had failed to observe the last-named provision was the declaration of Mrs. Sloan.

Mrs. Sloan yesterday asked to have the alimony reduced. He said he had failed to effect a reconciliation without success.

Mr. Sloan yesterday asked to have repeatedly to get her to say "Yes" to his question, "Do you love me?"

The case was continued until this morning, when more neighbors will testify.

## WIFE SAVES HIM.

## RELENTS AFTER ARREST.

William H. Geelan, real estate dealer, is not a resident of the County Jail today because his wife, who three days ago asked to have him committed on a failure to provide charges, suddenly reconsidered and pleaded successfully for his release. The fearful pleading of Geelan's pretty black-eyed daughter, Gladys, also helped him out of his predicament.

His wife at first was extremely bitter against her husband and added a warrant. He finally located Geelan in an apartment-house in Figueroa street. When he started to take him to jail Mrs. Geelan and little Gladys interrupted and pleaded that he be allowed to stay at home.

Going to jail, Deputy Bell related when Geelan promised to be on hand in court yesterday.

After hearing the testimony Judge Monroe dismissed the case and the mother, father and daughter left arm in arm.

## FALSE REGISTRATIONS.

## ALLEGATIONS ARE MADE.

Charges that between 2000 and 3000 false registrations were made in 25 primary election had been filed with County Registrar McAleer by deputes who he investigated the District Attorney's office, according to Deputy District Attorney Hammon.

Mr. Hammon said a number of serious charges had been filed with him by politicians, but he could not tell from the meager information in his possession whether any fraud had actually been committed. He said the matter may be taken before the grand jury.

Registrar McAleer declared if any of the alleged frauds had been committed by any deputies in his office he wanted them prosecuted. He asked Mr. Hammon to investigate.

## COURT PARAGRAPHS.

## PROCEEDINGS IN BRIEF.

ALLEGED FRAUD. Judge Willis yesterday heard the testimony of Frances Willard Fitz for the prosecution of William H. Russell, former manager of the California Automobile Club, charged with obtaining 1700 by false pretenses from the Inter-Insurance Exchange of the Automobile Club of Southern California. Russell is alleged to have collected the money on an insurance policy which protected him against fire and theft only. He is alleged to have represented his car was stolen, when in reality it was wrecked while he was joy riding.

LAUNDRY WOULD QUIT. A petition for the voluntary dissolution of the Angeles Steam Laundry was filed yesterday in the Superior Court. The petition was signed by the directors, W. F. McShane, W. E. Youle, W. A. Edwards, William B. Lawrence and W. A. Ellis. The resolution calling for the dissolution was adopted at a meeting two months ago, at which 44,000 shares were represented.

CHURCH PROPERTY. Application for authority to sell three lots at Long Beach was filed yesterday in the Superior Court by the Congregational Church of that city. The price offered is \$22,000, and the trustees say the money will be used to pay for construction of a new church edifice.

INCORPORATIONS. Ideal Vault-Casket Manufacturing Company, incorporators, W. C. Draper, Rachael J. Wade, A. K. Beardslee, J. P. Conroy, W. E. McShane, W. E. Youle, W. A. Edwards, William B. Lawrence and W. A. Ellis. The resolution calling for the dissolution was adopted at a meeting two months ago, at which 44,000 shares were represented.

CAMP AT CATALINA. (LOCAL CORRESPONDENCE.) WHITTIER, Aug. 13.—Sixty boys from Whittier, California, Y. M. C. A. Secretary Robert J. Hamilton to Catalina for a two weeks' camping expedition August 21. It will be the first annual camping party from Whittier under Y. M. C. A. auspices. The original plans provided for forty lads, but the insistent demand has caused Hamilton to enlarge plans to include a party of sixty from South Pasadena will be in camp at Catalina at the same time.

## IMPORTANT OIL CONTRACT MADE.

## UNION TO SUPPLY NEEDS OF LARGE CONCERN.

Guggenheim Corporation in Chile to Secure Big Supply of Fuel Oil from Local Corporation—Evidence Shows Steady Improvement in Market—Contract for Three Years.

Final details of the largest oil export contract ever consummated on this coast are being arranged between the Union Oil Company and the Chile Exploration Company for supplying the latter's needs in South America for a period of three years. Deliveries will commence in December. The contract calls for a minimum of 90,000 barrels and a maximum of 225,000 barrels a month, but it is expected that the South American concern will be taking the maximum in the course of a year or so.

At the maximum rate an increase of nearly 25 per cent. in the exports of fuel oil would be recorded, as the present rate is about 1,000,000 barrels a month. The news is regarded by oil men as of a most encouraging character, especially as the price of oil has been so high and the demand for it so great.

The Chile Exploration Company, a Guggenheim corporation, owns extensive properties at Chupacama, in the province of Antofagasta, Chile. It is capitalized at \$1,000,000, and its production of refined copper, on its oil fields, is estimated at 900,000 pounds per annum. The capacity of its plant is to be doubled.

Not only does the Union Oil Company benefit from the oil contract, but the members of the Independent Producers' Agency as well, of which the Union is one, and for whom it acts as a market. Agency members have steadily been getting a higher price for their product in the last few years, and now the rate is approximately 40 cents a barrel.

The Union has been a strong factor in the South American trade, where the market for fuel oil has been steadily expanding. The company could not move the oil from California fast enough to supply the demand during the spring, and had to secure the Mexican product at Panama, in order to have a shorter haul. Temporary for the time being, the oil has been somewhat disarranged, but it is believed that the situation will clear shortly and allow for a comparatively free movement to that section.

## ECZEMA IN MASS OF PIMPLES

Itching Burning Sensation Unbearable. Severe Irritation. Used Cuticura Soap and Ointment. Free From Ecema.

2211 Bent St., Chesham, Wyo.—"My eczema appeared in the worst form; it looked like a great mass of pimples. The itching and burning sensation was unbearable and it was impossible for me to sleep for more than a half hour at a time so severe was the irritation."

"After we tried medicines and other remedies which did not prove successful in relieving me, I was told to try Cuticura Soap and Ointment. My mother obtained the Cuticura Soap and Ointment and began using them immediately. I washed my face and head thoroughly with the soap and warm water and then applied the ointment. In about two weeks I was perfectly free from the eczema."

(Signed) MACEO CRUSE, April 8, 1914.

## Sample Free by Mail

A generation of mothers has found no soap so well suited for cleansing and purifying the skin and hair of infants and children as Cuticura Soap. Its absolute purity and refreshing fragrance alone are enough to recommend it above ordinary skin soaps, but there are added to these qualities delicate, yet effective, emollient properties, derived from Cuticura Ointment, which render it most valuable in overcoming a tendency to distressing eruptions and promoting a normal condition of skin and hair health. Cuticura Soap (25c) and Cuticura Ointment (5c) sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with 15-p. book on the skin and scalp. Address post card "Cuticura, Dept. 7, Boston."

## BUY AUTOS HE DOESN'T RECEIVE.

ALSO CASHES CHECKS BUT GETS NO MONEY—IS UNDER ARREST.

The police have an original offender. He is tow-headed, Fritz Nieman, 23 years of age, charged with passing fictitious checks.

Fritz has cashed two checks totaling \$700, but has not received a cent on them. He has bought two automobiles, but they never have and probably never will, be delivered to him.

When Fritz went abducting his car for the second time, he took a truck coat, Ascot tie and gray flannels for him. No, not Fritz decked himself as a bet, a horn-handed son of toil. His hands were a long-vizored engineer's cap, overalls and jumper covered him to the extremities. His feet were encased in brogans.

He could not be verified and complete the make-up he smeared grime on his face. In this disguise he appeared in the streets of Los Angeles. He went into one branch house and declared himself a Southern Pacific engineer from Bakersfield. He looked the part. He was taken for a demonstration, and jollied along to the tune of a high ball or two. The car suited his fastidious tastes. He drew out a check on a Bakersfield bank and filled it in for \$500. But he couldn't get the car until the check could be verified. It could not be verified and Fritz went to another house to buy a car. He had his joy-rides and decided upon the car. Evidently hoping to get by with a smaller check, he wrote one out for \$300. The engineer's

My mother obtained the Cuticura Soap and Ointment and began using them immediately. I washed my face and head thoroughly with the soap and warm water and then applied the ointment. In about two weeks I was perfectly free from the eczema."

(Signed) MACEO CRUSE, April 8, 1914.

## Sample Free by Mail

A generation of mothers has found no soap so well suited for cleansing and purifying the skin and hair of infants and children as Cuticura Soap. Its absolute purity and refreshing fragrance alone are enough to recommend it above ordinary skin soaps, but there are added to these qualities delicate, yet effective, emollient properties, derived from Cuticura Ointment, which render it most valuable in overcoming a tendency to distressing eruptions and promoting a normal condition of skin and hair health. Cuticura Soap (25c) and Cuticura Ointment (5c) sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with 15-p. book on the skin and scalp. Address post card "Cuticura, Dept. 7, Boston."

## BUY AUTOS HE DOESN'T RECEIVE.

ALSO CASHES CHECKS BUT GETS NO MONEY—IS UNDER ARREST.

The police have an original offender. He is tow-headed, Fritz Nieman, 23 years of age, charged with passing fictitious checks.

Fritz has cashed two checks totaling \$700, but has not received a cent on them. He has bought two automobiles, but they never have and probably never will, be delivered to him.

When Fritz went abducting his car for the second time, he took a truck coat, Ascot tie and gray flannels for him. No, not Fritz decked himself as a bet, a horn-handed son of toil. His hands were a long-vizored engineer's cap, overalls and jumper covered him to the extremities. His feet were encased in brogans.

He could not be verified and complete the make-up he smeared grime on his face. In this disguise he appeared in the streets of Los Angeles. He went into one branch house and declared himself a Southern Pacific engineer from Bakersfield. He looked the part. He was taken for a demonstration, and jollied along to the tune of a high ball or two. The car suited his fastidious tastes. He drew out a check on a Bakersfield bank and filled it in for \$500. But he couldn't get the car until the check could be verified. It could not be verified and Fritz went to another house to buy a car. He had his joy-rides and decided upon the car. Evidently hoping to get by with a smaller check, he wrote one out for \$300. The engineer's

## LEAVE FIRES BURNING.

## Manager of Water Company Fined for Offense That Threatened the Supply of His Own Concern.

Supervisor Charlton has received advice of a number of arrests for leaving open fires in the Angeles National Forest. F. A. Powell, manager of the MacLay Water Company, at San Fernando, left a fire in Pacoima Canyon, and was fined \$25 by Justice Barclay of San Fernando. The water used by the MacLay Company all comes from Pacoima Canyon, in fact, the corporation is the only company getting water from that source.

F. E. Webber, of this city, paid \$50 to Justice Melrose for leaving a fire in Big Tejon Canyon. Webber

## RESINOL CURED ECZEMA IN ITS WORST FORM

Feb. 25, 1914: "I had eczema in the worst form all over my face. It started with a rash like hives, and itched and burned so that I could not keep my hands off of it. I could hardly sleep. The more I rubbed it the worse it itched, and the more it spread. Blisters formed, and when opened has pus in them. I looked terrible. I would not let myself be seen. This lasted for about three months, and during that time I tried prescriptions, cold creams, camphor, etc. But it still kept getting worse, until at last
